

Dear Friends:-

[1961]

Enclosed you will find a partial list of the plants we have as we are constantly adding to our nursery stock. We specialize in a variety and obtaining what the customer wishes, rather than in one certain plant or group of plants. Our plants are all strong, growing, young plants and not old stunted plants. We are State of Alabama and United States Government Inspected and Licensed to operate a nursery, both wholesale and retail.

This price list cancels all prior price lists. All prices quoted are subject to stock on hand or wholesale stock available. All prices are CASH. NO C.O.D.'S. PLEASE. We would appreciate it if you would send a minimum order of \$1.00. Due to the recent rise in Parcel Post rates we ask a minimum of 50¢ Postal Charges on all orders. All the specimen plants will be sent transportation charges collect. All orders of \$3.00 and up regardless of kinds of plants will be sent transportation charges collect if the charges do not accompany the order. The term specimen plants means larger than the average plants or roughly from 24 inches up, or in some cases over three years old. There is no charge for packing. All plants are moist-packed, and we try to mail so that they will not lay over the week-end at their destination.

We are located on Saraland Avenue, just off U.S. Highway 43, north of Mobile, Alabama about 15 miles. We are located in a big wholesale area and practically any plant that will grow in the South is available here. We wish to serve our customers in a manner we like to be served ourselves.

We have a variety of liners and the varieties and price list will be sent on request. 25 plants is the smallest order filled of these.

We guarantee the plant to be in good livable condition and well-packed when delivered to the shipping point. Further than that we accept no liability.

If we cannot fill an order or cannot obtain it for you we will gladly refund your money. Under no circumstances will we substitute without first consulting you. We list all our plants by the commonly known names, and if there are any plants you wish to know more about please, write us and we shall be glad to help you.

We hope to serve you soon and have a small part in helping you to beautify your home.

Always at your service,  
Bayou Sara Nursery.

Mr. and Mrs. Chester A. Robinson, Owners, Operators, and Growers.

**AZALEAS:--**
